DETAILED ACTION

EXAMINER'S AMENDMENT

- An examiner's amendment to the record appears below. Should the changes and/or additions
 be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To
 ensure consideration of such an amendment, it MUST be submitted no later than the payment
 of the issue fee.
- Authorization for this examiner's amendment was given in a telephone interview with Joel
 G. Landau (54,732) on March 9, 2005.
- 3. The application has been amended as follows:
 - In claim 9, change "a" to "the."
 - Under the heading, "Description of the Drawings," paragraphs 15 and 16, please change
 "conventional" to "prior art."
- 4. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: Please add the label, "Prior Art," to Figures 5 and 6, respectively. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not

Page 2

accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Allowable Subject Matter

- 5. Claims 3, 4, 6, 9, 14, and 15 are allowed.
- 6. The following is an examiner's statement of reasons for allowance:
 - With respect to claims 3 and 14, the primary reason for allowance is because the Prior Art does not disclose a driving unit for a single phase motor and a method for driving said motor, wherein the driving unit has a recirculating section that recirculates electric current to the coil by controlling the on and off timing of the first and second transistors immediately after the direction of the driving current for the coil changes direction; a comparison section that compares a value of a sine wave signal obtained from a Hall

Art Unit: 2837

device with a reference value and outputs a timing signal corresponding to the predetermined period; and the recirculating section controls on and off timings of the first and second transistor based on the timing signal.

- With respect to claims 4 and 15, the primary reason for allowance is because the Prior Art does not disclose a driving unit for a single phase motor and method for driving said motor, where the driving unit has a recirculating section that recirculates electric current to the coil by controlling the on and off timing of the first and second transistors immediately after the direction of the driving current for the coil changes direction; a detecting section that detects rotation and stop of the single phase motor and outputs a rotation signal and a stop signal; and when the motor cannot start, the recirculating section steps recirculating until the output of the detection section changes from the stop signal to the rotation signal.
- 7. Therefore, based on the arguments and amendments presented by the Applicant, the Examiner acknowledges the Prior Art fails to make obvious the Applicant's claimed invention.
- 8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Page 5

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patrick Miller whose telephone number is 571-272-2070. The examiner can normally be reached on M-F, 8:30-5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Martin can be reached on 571-272-2800 ext 41. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-306-3431.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
